

BAKUP-USA

Installation Guide

Suzuki Intruder VS800GL Driver's Backrest HO

1. Remove 2 screw phillips head (on each side) to the rear of the gas tank.
2. Remove the rider's seat.
3. Remove the two (2) phillips head screws in front of the passenger seat.
4. Put your Backup in place by aligning the holes at the base of the bracket with the holes (being careful not to pinch any of the wiring). Install 2 screws supplied with your backup.
5. Re-install the rider's seat and screws. Adjust the height to your liking.
